Shivam Kumar Nepit

ReactJS Developer | 1 Year Experience

New Delhi, India +91 8384039157 ✉ shivamkumarnepit@gmail.com

PROFESSIONAL SUMMARY

Results-driven Frontend Developer with 1 year of hands-on experience in React.js development across product-based and IT service environments. Proven track record of building and maintaining real-time, production-grade web applications, integrating complex RESTful APIs, and designing responsive UI modules. Currently pursuing an MCA from Galgotias University while delivering high-performance, scalable code in an active product ecosystem.

TECHNICAL SKILLS

Frontend Tech: React.js, Redux, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap

Backend & DB: Python, Node.js / Express (MERN Stack Fundamentals), MySQL

Tools & Workflow: Git, GitHub, Bitbucket, Jira, Visual Studio Code, PyCharm, REST API Integration

WORK EXPERIENCE

ReactJS Developer — Delhi Academy of Medical Sciences **May 2025 – Present**

Product-Based Company · Leading EdTech Product Platform · New Delhi, India

- Actively develop and optimize real-time production features for web applications used by medical aspirants nationwide.
- Engineer dynamic, highly responsive UI components and seamless RESTful API integrations for core product modules.
- Utilize Jira for bug tracking, agile ticket resolution, and performance enhancements across live platforms.
- Collaborate with product managers and backend engineering teams to deliver robust end-to-end frontend solutions.

Web Development Intern (ReactJS) — SO INFOTECH (Pulsating Technologies) **Nov 2024 – Jan 2025**

IT Outsourcing & Software Solutions · New Delhi, India

- Worked closely with senior engineering leads on real-time web application deliverables and client-facing features.
- Analyzed frontend state management and data flow architecture to streamline seamless client-server API communication.
- Implemented custom CSS frameworks and modern JavaScript techniques to ensure responsive, cross-browser UI design.

KEY REAL-TIME PROJECTS & MODULES

Real-Time User Authentication & Onboarding System **2024**

- Developed production-ready registration and login workflows with interactive, real-time client-side validation feedback.
- Integrated react-skeleton-loading UI states to elevate visual UX during asynchronous data fetching and server requests.

Interactive Medical Learning Portal UI Module **2025**

- Built modular, high-performance web components for live course navigation, exam preparation modules, and content display.
- Optimized page load speed and UI responsiveness across various mobile and desktop viewports.

EDUCATION & CERTIFICATIONS

Master of Computer Applications (MCA) — Galgotias University **Pursuing**

Python Full Stack Developer Certification — DUCAT IT Training Academy **Mar 2024 – Oct 2024**

Bachelor of Arts (BA Hons) — SOL, Delhi University **2021 – 2024**

Senior Secondary (12th) & Matriculation (10th) — Govt. Senior Secondary School **2019 – 2021**
